

# SUPERHEAT™

SMART GEN

20 YEAR ANNIVERSARY

## EQUIPMENT HIGHLIGHT

**Superheat SmartGen™** brings power to your heat treatment™ work site in the form of a self-sustaining diesel-generating unit.

- Compact, high-capacity, and quiet design provides a small footprint in tight operating areas
- Entire unit is operated remotely from startup to shutdown from the **Superheat SmartCenter™**
- Offers various built-in safety features
- The only **approved** heat treatment system engineered safe for all environments (Certified to UL # 508A/CSA # C22 No.14-10 Standards)

**Superheat SmartGen™** offers a wide range of models to handle various capacity needs:

| Generator Model | Capacity         |                        |
|-----------------|------------------|------------------------|
| GR6             | 6 Control Zones  | 12 Thermocouple Inputs |
| GR12            | 12 Control Zones | 24 Thermocouple Inputs |
| GR18            | 18 Control Zones | 36 Thermocouple Inputs |
| GR24            | 24 Control Zones | 48 Thermocouple Inputs |

**BETTER SAFER FASTER™**
