

SUPERHEAT™ 20^{YEAR} ANNIVERSARY

SMARTVIEW™

PROCESS HIGHLIGHT

MINIMIZE RISKS

IMPROVE QUALITY

REDUCE COSTS

SAVE TIME

1. Superheat SmartView™: An interactive Web Based Quality Assurance Platform including everything from client requests, live weld status & charts, to final Superheat SmartReports™ QA package download

- DropIn Box:** Simply upload Heat Treatment requests, Quality & Engineering Specifications, and IOS Drawings ect. into the DropIn Box. Dramatically improving responsiveness and saving valuable time premobilization.
- Jobs Setup:** View activity statuses and estimated start time for jobs being set up for heat treatment, providing enhanced decision making abilities as you plan the next steps on your project.
- Welds Pending:** Ensure the job gets done right the first time by adding an optional hold point for additional Quality Assurance inspection.
- Jobs Running:** Monitor Live heat cycle charts and status updates in real time from any device. Ensure QA parameters are adhered to, offering the highest level of transparency compared to any heat treatment provider.
- Jobs Completed:** Verify jobs that have been completed and download charts to increase data throughput into your QA system.
- Welds Complete:** Further quantify your heat treatment at the individual weld level by download complete **Superheat SmartReports™** packages that compile all activities to the weld in one file or in separate files based on your preferences. Never misplace a quality document again.
