PROCESS HIGHLIGHT

Advancing Heat Treatment For The Digital Marketplace

MINIMIZE RISKS

Reduce human footprint
via web based platform

IMPROVE QUALITY

Centralized document
control hub for lifetime
QA Package retrieval

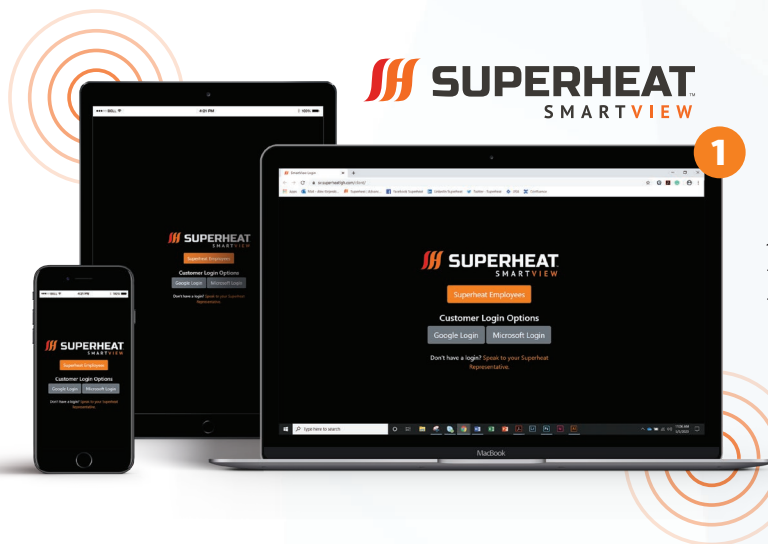

REDUCE COSTS

Up to 40% labor
cost savings

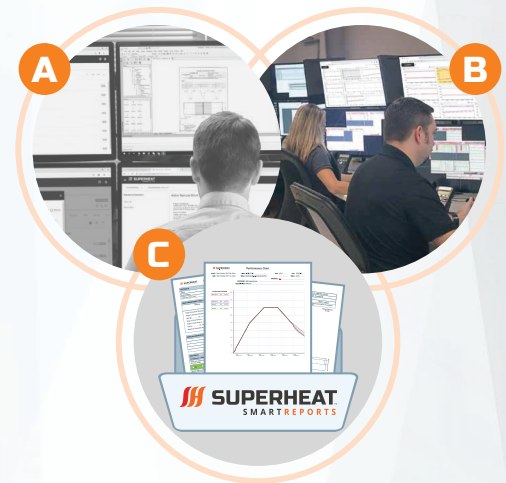

SAVE TIME

Premobilization and
decision making
capabilities

2 SUPERHEAT SMARTCENTER

1. Superheat SmartView™: An interactive Web Based Quality Assurance Platform including everything from your heat treatment requests, live weld status & charts, to final Superheat SmartReports™ QA package download.

2. Superheat SmartCenter™: The Knowledge and Remote Control center of your Heat Treatment Process:

- A.** Technical Engineering Department works cross functionally to provide wrapping Spec Sheet to onsite set up crews leveraging a library of 10,000+ success heat treatment configurations.
- B.** Control room runs and operates heat cycles via a patented remote monitoring & controlling service.
- C.** Quality Assurance Department assures the integrity of work and prepares **Superheat SmartReports™** for your download within Superheat SmartView™.
