

SUPERHEAT™ 20^{YEAR} ANNIVERSARY

SMART FURNACE II

PROCESS HIGHLIGHT

MINIMIZE RISKS

A web based QA process eliminates contractor footprint on-site

IMPROVE QUALITY

Centralized document control hub for lifetime QA Package retrieval

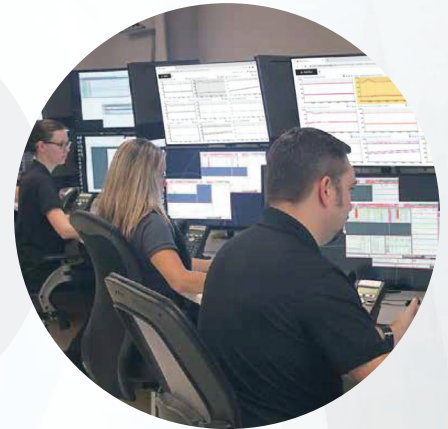

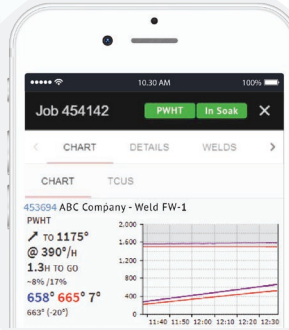

REDUCE COSTS

Up to 40% labor cost savings on per use billing

SAVE TIME

Zero contractor wait time on furnace loads

- Introducing the **Superheat SmartFurnace™ II**: The most advanced and adaptable furnace for your immediate heat treatment needs. Easily expand the capacity of your **Superheat SmartFurnace™ II** by adding 6' sections through the implementation of coupler attachments. No restrictions on length provides customization to your component requirements.
- Superheat SmartPak™** provides real time temperature readings at the workpiece, while near field communication via the **Superheat SmartCard™** lends safety lock out capabilities.
- Take the guess work out of heat treatment timelines by viewing real time weld statuses and live charts through **Superheat SmartView™**. At the completion of the cycle download **Superheat SmartReport™** QA packages directly from **Superheat SmartView™**. You will never have to wait on a contractor to deliver your information again.

Improve Quality

- API (American Petroleum Institute) est. 1919
- API Spec 16A Appendix D- Recommended Practice For Heat Treating Equipment Qualifications.

Specifications:

Qty 1 SmartFurnace™ II
Size: 6'L x 4.5'W x 4.3'H

Qty 2 SmartFurnace™ II
Size: 12.5'L x 4.5'W x 4.3'H

Qty 3 SmartFurnace™ II
Size: 19'L x 4.5'W x 4.3'H

BETTER SAFER FASTER™

ADVANCING HEAT TREATMENT™
